FOR IMMEDIATE RELEASE

AusNet Services has been urgently repairing damage to electricity transmission lines in South Western Victoria. While this work is being undertaken, the safety of the remaining lines is paramount.

Regretfully, we have had to request that the CFA postpone planned burns in the vicinity of transmission lines in South Western Victoria.

We thank them for their consideration and co-operation, and are working closely with them to reduce the impact as far as possible.

For all media enquiries from journalists and media outlets (24 hours a day, seven days a week), call (+61) 3 9483 0989.
